EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas A. Wootton on 08/18/05.

The application has been amended as follows:

Claim 1 has been amended as followed:

-- Claim 1. A palatable pharmaceutical composition for oral administration to companion animals comprising a pharmaceutically effective amount of pharmaceutically active agent in combination with a palatability improving agent and a pharmaceutically acceptable carrier, wherein the palatability improving agent is artificial beef, is present in an amount ranging from about 0.025% to about 99% by weight of the pharmaceutical composition to make the pharmaceutical composition palatable to the companion animal, and is homogeneously mixed with the pharmaceutically active agent, wherein the pharmaceutically active agent is carprofen, and wherein the palatability improving agent provides for voluntary acceptance of the palatability improving agent by the companion animals which is greater than or equal to about 30% voluntary acceptance.--

Claim 19, line 6, after the phrase "of the pharmaceutical composition", the phrase "to mask the unacceptable taste of the pharmaceutically active agent, wherein the pharmaceutical composition has an unacceptable taste" has been inserted.

Claims 2, 10, 21 and 42 are cancelled.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is the inclusion of carprofen as the active agent, and the amount of palatability improving agent into all claims. The cited prior art does not teach or suggest a palatable pharmaceutical composition for companion animals comprising a pharmaceutically effective amount of carprofen homogeneously mixed with the pharmaceutically active agent to provide for voluntary acceptance of the palatability improving agent by the companion animals which is greater than or equal to about 30% voluntary acceptance.

palatability improving agent and a pharmaceutically acceptable carrier, wherein the palatability

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

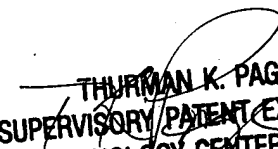

Claims 1, 3-6, 9, 13, 14, 19, 20, 22-27 and 30-38 are allowed.
